Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/062,588	Applicant(s) ZAHNER, DAVID	
	Examiner Katherine Moran	Art Unit 3765	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 16-21 in the reply filed on 5/13/08 is acknowledged. Claims 1-15 and 22-24 are withdrawn as non-elected.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 16-21 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 24, 26, 32, and 46 of U.S. Patent No. 7,058,988. Although the conflicting claims are not identical, they are not patentably distinct from each other because each structural limitation of claims 16-21 is present in the specified claims of '988.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 16, 19, 20, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Herr (U.S. 4,791,682). Herr discloses the invention as claimed. Herr teaches an article of manufacture comprising an oven mitt or towel-related product 20 comprising a fastener for attaching the mitt to a mounted rod without removing the rod from its supports, the fastener comprising a loop 30 having an opening in the loop, the opening comprising an open configuration and a closed configuration, the fastener can be inserted onto a rod when the opening is in the open configuration and wherein the fastener is secured onto the rod such that the oven mitt hangs off of the rod when the fastener is in the closed configuration.

6. Claims 16-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Burnett (U.S. 3,146,464). Burnett discloses the invention as claimed. Burnett teaches an article of manufacture which could be referred to as an oven mitt 2 in that it could be used in the manner of an oven mitt, comprising a fastener for attaching the mitt to a mounted rod without removing the rod from its supports, the fastener comprising a loop 5,6 having an opening in the loop, the opening comprising an open configuration and a closed configuration, the fastener can be inserted onto a rod when the opening is in the open configuration and wherein the fastener is secured onto the rod such that the oven

mitt hangs off of the rod when the fastener is in the closed configuration. Note fasteners 8 and 9 for providing open and closed configurations. The mitt comprises an upper edge 4 and the fastener comprises a slit 10 intersecting with the upper edge 4.

Conclusion

7. The prior art made of record on the attached PTO-892, and not relied upon, is considered pertinent to applicant's disclosure.
